GASTON MUSIC CO. at Clinton's.

The street sprinkler was started yesterday for the first time this spring. It was also much needed. The present paving facilities seem to doom North Platte to either extremely muddy streets or extremely dusty streets. The muddy streets scarcely leave until the dusty streets arrive and the dust remains until the mud is over one's shoe tops.

G. Sharpley Thompson, of Hershey, transacted business in town yesterday and incidentally voiced the general sentiment of Hershey people regarding the train service. Coming here in the morning the people of the west part of the county are compelled to remain until one o'clock at night, whereas the company could without inconvenience make Hershey and Sutherland stops for train No. 17, which leaves here about six o'clock in the evening. Efforts will be made to have this train make these two stops.

## The Best Women's Suits You Ever Saw at moderate prices—Wooltex, of course

By special co-operation with the manufacturers of Wooltex tailored garments we have been able to assemble this remarkable collection. The models are wonderfully handsome, and in great variety. The materials are the popular gabardines, serges, poplins, coverts and checks. The illustration shows just four of the many superb designs.

When you consider that every material is absolutely all wool; that every fabric has been selected because of its superior qualities, and its correctness of style—

When you examine the linings of the garments and realize that every piece of silk is pure silk—

When you see how beautifully the garments are made, and are shown with what care and thoroughness every seam is run, and every vital point of tailoring is executed—

When you try on the garments and see how they conform to the figure, and how soft and elegant they feel—

When you realize the beautiful lines are not bolstered up by stiff canvas, but are tailored into a form which will retain its shapeliness during the life of the garment—

You will be amazed that garments of such elegance, refinement and general superiority can be bought for such reasonable prices as are marked on them.

### Descriptions of the Suits Illustrated

The suit at the left of the picture, No. 1709, is adapted from a Paquin model. The effective pocket flaps are set on diagonally and outlined by closely-set buttons. The rolling collar is

finished with tabs that button down on the jacket; slightly diagonal front. New circular skirt, with partial over-yoke, trimmed with buttons like the jacket.

The second figure, No. 1710, illustrates a suit adapted from a recent Doucet model. A charming effect is produced by the slash at each side of the coat, finished with buttons and buttonholes. The partial belt from side to side across the back holds in the fulness. Officer's collar overlaid with detachable washable collar.

No. 1711 is a charming suit in youthful effect with a panel back, which extends below the line of the coat at sides and in front. The partial belt around the back and sides ends at the panel in front. The skirt flares moderately below the yoke. The materials are serge, box poplin, and black and white checks.

Suit No. 1720 at the right is in a smart Polo effect, well cut on plain lines, with moderate fulness; finished with smart pockets on both jacket and skirt. Made in checks, poplin and covert cloth.

Many other Wooltex models at \$25.00 to \$30.00 combine variety and excellence that are absolutely unequalled in this city. But you must see them personally to appreciate fully their extraordinary value.

When may we have the pleasure of showing them to you?
